Incorporating Dental Implants into General Dental Practice

Many of our dental colleagues would like to get started in this fascinating work which dramatically improves patients' lives.

Upon completion of this course you will be able to carry out single tooth and small bridgework implant restorative treatment in your own practice.

To book your place simply scan the QR code & complete the form.

CONTENT:

- An overview of dental implant treatment, with emphasis placed upon hands-on restorative phase. Implant concepts, treatment planning, case selection, cement retain / screw retain restoration and maintenance

WHO IS IT FOR:

- Dentists who want to restore implants in their own practices

FORMAT:

- Seminars, mentoring and hands on workshops over 3 evenings

FEE

- This course is free to referring GPs

LOCATION:

- At our state of the art practice on Victoria Street in Norwich's city centre

Free verifiable CPD available- 2.5 hours per session

Over **40 local dentists** have benefitted from attending this course and have provided over **200 implant restorations** in their own practices.

FREE TO ATTEND*

**To select referring GPs*
